

COVER LETTER – ADOLFO ANDRES HINCAPIE

Dear Hiring Committee,
TNC Brasil

I am writing to express my interest in the Gerente de Projetos de Carbono position at TNC Brasil. With a strong background in carbon project management and a passion for environmental conservation and desire to move to Brasil, I am confident that I can contribute significantly to your team.

My academic background includes degrees in Forestry Engineering and Anthropology from Colombia, and a Master's in Environmental Systems Analysis and Modeling from Brazil, as detailed in my CV.

I specialize in quantitative forestry, social sciences, and GIS problem-solving. I have spent seven years working on carbon conservation and sustainable forest management projects across diverse sectors such as private companies, NGOs, and community initiatives.

As a problem-solver, I have successfully led and managed complex carbon projects. My strengths lie in addressing technical carbon issues related to REDD+ projects and agroforestry and innovating creative solutions. I bring over five years of experience in the voluntary carbon market, specifically under VCS, CCBs, and GS. However, I am working on improving my flexibility to better manage time and resources.

I believe TNC Brasil could benefit from my experience and roles, which include providing guidance on methodology selection, expertise in implementation, and quality assurance. I have also advised on risk mitigation strategies to ensure top-tier carbon credits. More about my journey in the carbon market can be found on my website: <https://aahincapie.github.io/about/>

Will be amazing to support TNC Brasil's mission of environmental stewardship. Living in Brazil presents an exciting opportunity for me to collaborate with experts, contribute to research, and aid nature climate solutions.

I look forward to discussing how I can contribute to your team's goals.

Adolfo Andrés Hincapié García (He, Him, His)
